Educational

FE1200 Cirrus Inverted Seam Innerspring

- Innerspring unit encased with extra firm perimeter foam
- Inverted Seam design for prevention of bed bug infestations
- 6" height
- 2 year limited pro-rated warranty

★ Most Popular!

FE1500 Stratus Inverted Seam Innerspring

- Innerspring unit encased with extra firm perimeter foam
- Two-sided firmness construction 35 ILD and 45 ILD
- Inverted seam design for prevention of bed bug infestations

★ 100% Recyclable!

GA 1800 GAEA Green Mattress

- fully recyclable environmentally friendly alternative to traditional foam and innerspring
- Dual Sided construction with polymer strand support core
- Inverted seam design for prevention of bed bug infestation
- 3 year limited pro-rated warranty

Why Inverted Seam Design?

- Gets rid of the "tape edge" design, where the bed bugs lay their eggs
- Seamless design prevents snagging or tearing
- Combination of Antimicrobial/antibacterial cover with inverted seam design allows for clean and long lasting life of the mattress

Government

★ Top of the line! FE1800 Series Mattress

- Innerspring unit and medium density foam case
- 7.25" Mattress height
- Dual Sided Firmness 35 and 45 ILD
- Anti-bacterial and Anti-microbial cover

Why Dual Sided Firmness?

Dual sided firmness serves two purposes: Gives the user a choice between plush and firm side, as well as doubling the life of the mattress.

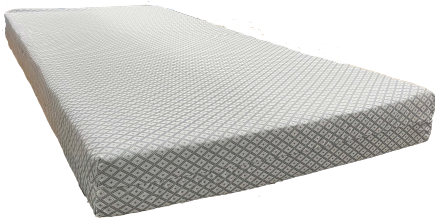

PFS Cirrus HX1

- Antibacterial and Antimicrobial cover
- Innerspring and Tape Edge Design
- Non-Flammable outer cover material
